Primary ecosystem service	cobenefit ecosystem service	Indicator Category	Indicator	Measured Variable	Tests	Customer(s)	Ecosystem Service(s)	Measurement Type	Measurement Feasibility	Measurement Accuracy	Pricing/ Payment Feasibility
Increased water storage	Carbon storage	Water Storage/ Infiltration	Increased organic Matter		Soil test	Farmer and public	Carbon sequestration, flood mitigation, drought resilience	Field	Easy	Medium	Easy
Improved water quality	Increased crop productivity	Compaction	Decreased bulk density		Bulk density test	Farmer and public	Water quality, flood mitigation	Field	Easy	High	Easy
Improved water quality	Increased crop productivity	Stability/ Erosion	Increased aggregation and aggregate stability		Visual soil assessment, Slake test. Aggregate stability tests.	Farmer and public	Nutrient attenuation/ retention	Field	Moderate	Medium	Moderate
GHG reductions		GHG emissions redux	Decreased GHG emissions from surface
