Market Comments

Seasonality:
We have a few more commodities this week to report on. This is the first noticeable produce gain thus far!

Weather Conditions:
About half of the markets reported very overcast, humid weather for their markets. Only few reported rain, so overall weather didn't impact attendance hardly at all.

Attendance:
Due to the weather, the majority of the markets reported that attendance was average this week. Overall markets are reporting that sales are as good or better than last year. They contribute this to weather and markets sponsored activities
