Doug Lawrence
Product Manager AQ- Agriculture Products
Arkion Life Sciences LLC
551 Mews Drive, Suite J
New Castle, DE 19720

Dear Mr. Lawrence:

The Vermont Agency of Agriculture has reviewed and accepted Special Local Need Registrations for **Avipel® Liquid Seed Treatment**, (9,10 anthraquinone) and **Avipel® Hopper Box (dry) Corn Seed Treatment** (9,10 anthraquinone) as a seed treatment for the protection of field and sweet corn seed to discourage consumption by Black Birds. The Special Local Need Registration numbers assigned to this registration is VT-12-0001 for the Liquid and VT-12-0002 for the Hooper box dry. The expiration date on the Special Local Need label is July 15, 2013.

As the registrant, you are expected to provide each of your Vermont dealers with complete copies of the Special Local Need (SLN) label. Your dealers must provide a complete SLN label to each applicator who will purchase and use this product for the intended purpose.

You may release these products for use or distribution into Vermont. Attached is an Application for the Registration of Pesticides that must be completed and returned as soon as possible.

If you have any questions, please feel free to contact me.

A handwritten signature in black ink, appearing to read "Cary Giguere". The signature is fluid and cursive, with a large initial "C" and "G".

Cary Giguere
