2022 Feed Sample Results	29

Introduction

This report summarizes all feed sampling and analyses conducted by the Agency from January 1, 2021, through December 31, 2022. The report includes the total number of samples collected from each registered feed company, trends over time since 2018 addressing the types of products registered, and information about Vermont feed companies. It also includes the individual results of the analyses in 2021 and 2022, and whether the product passed, failed, was within tolerance.

During 2021, agency field staff collected a total of 120 feed samples. VAEL conducted 663 chemical analyses for protein, fat, fiber and moisture and secondary nutrients such as calcium and salt. In 2022, 177 feed samples were collected and analyzed. For these samples, the Agency's laboratory conducted 910 chemical analyses for protein, fat, fiber and moisture and secondary nutrients such as calcium and salt.

The purpose of the sampling and testing is to ensure that feed consumers are receiving products that conform to the label guarantee for all nutrients. During 2021, 22 samples failed to meet the label guarantee for one or more nutrients. During 2022, 23 samples failed to meet the label guarantee for one or more nutrients.

The Agency assesses penalties to manufacturers for products that are deficient in protein, fat and or fiber. Violations are set at \$50 per each protein, fat or fiber deficiency found. The penalty may be increased for continual violations. All penalties are paid to the Agency.

Public Health & Agricultural Resource Management staff conduct marketplace inspections throughout the year. The Agency enters any unregistered products into its database and sends letters to manufacturers requesting registration. If products remain unregistered, a stop sale will be issued to the manufacturer and if the issue remains unresolved further action may be taken by the Agency.

If you have any questions regarding this report or Vermont's Feed Program, please contact the Public Health and Agriculture Resource Management Division; Vermont Agency of Agriculture, Food and Markets; 116 State Street; Montpelier, VT 05620-2901, or call (802) 828-5050.

2021 Feed Summary Table

Feed Companies with 5 or More Samples Taken

Company	# Samples Collected	# Nutrients Analyzed	# Sample Deficiencies	# Sample Violations
Cargill Inc Dba Cargill Animal Nutrition	8	46	2	1
Green Mountain Feeds	15	75	3	1
Kent Nutrition	23	112	1	0
Morrison's Custom Feeds	10	62	3	2
Phoenix Feeds	10	54	7	4
Poulin Grain	37	211	3	1
Total	103	560	19	9

A sample is deficient if the analysis of any component varies from the guarantee by an amount greater than the values set in Vermont Statute. The allowed variance is based on component tested and is not equal for all components. Sample violations are those samples which are deficient in protein, fat and/or fiber. Sample deficiencies includes all deficiencies (Ca, NaCl, etc.).

2022 Feed Summary Table

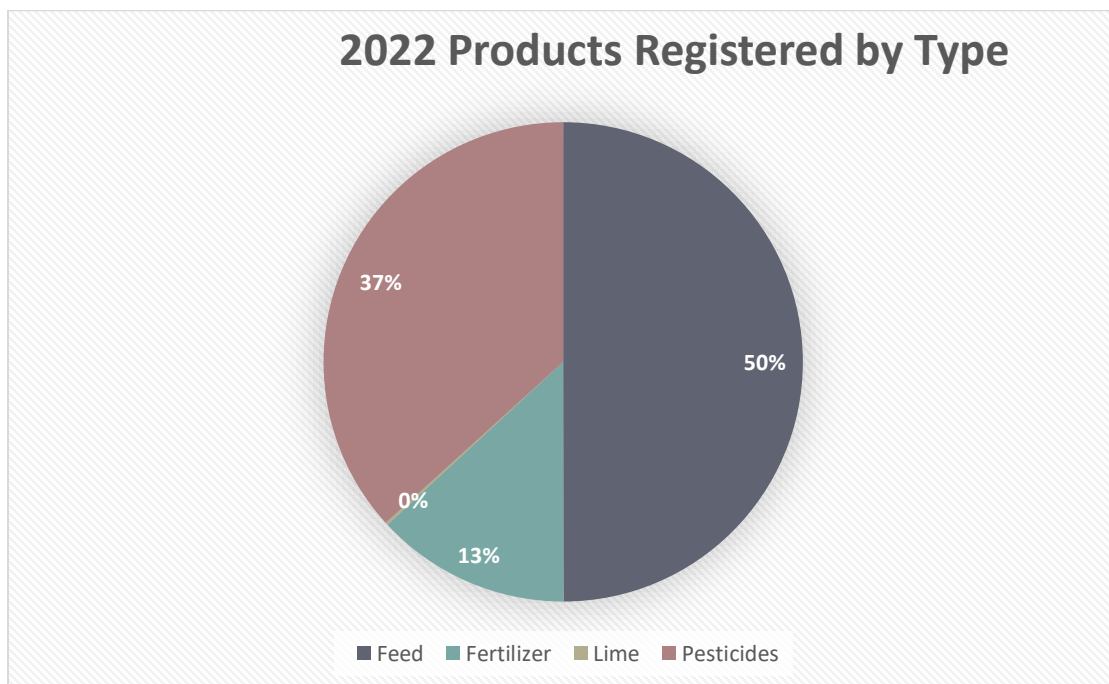

Feed Companies with 5 or More Samples Taken

Company	# Samples Collected	# Nutrients Analyzed	# Sample Deficiencies	# Sample Violations
Big Heart Pet Brands	5	20	0	0
Bourdeau Brothers	9	39	5	4
Cargill Inc Dba Cargill Animal Nutrition	12	70	2	0
Diamond Pet Foods	6	24	1	1
Green Mountain Feeds	5	28	1	1
Kent Nutrition	37	178	0	0
Morrison's Custom Feeds	14	82	5	2
Pets Global	10	50	2	2
Phoenix Feeds	12	64	3	3
Poulin Grain	45	237	3	2
Sunshine Mills	8	37	0	0
Total	163	829	22	15

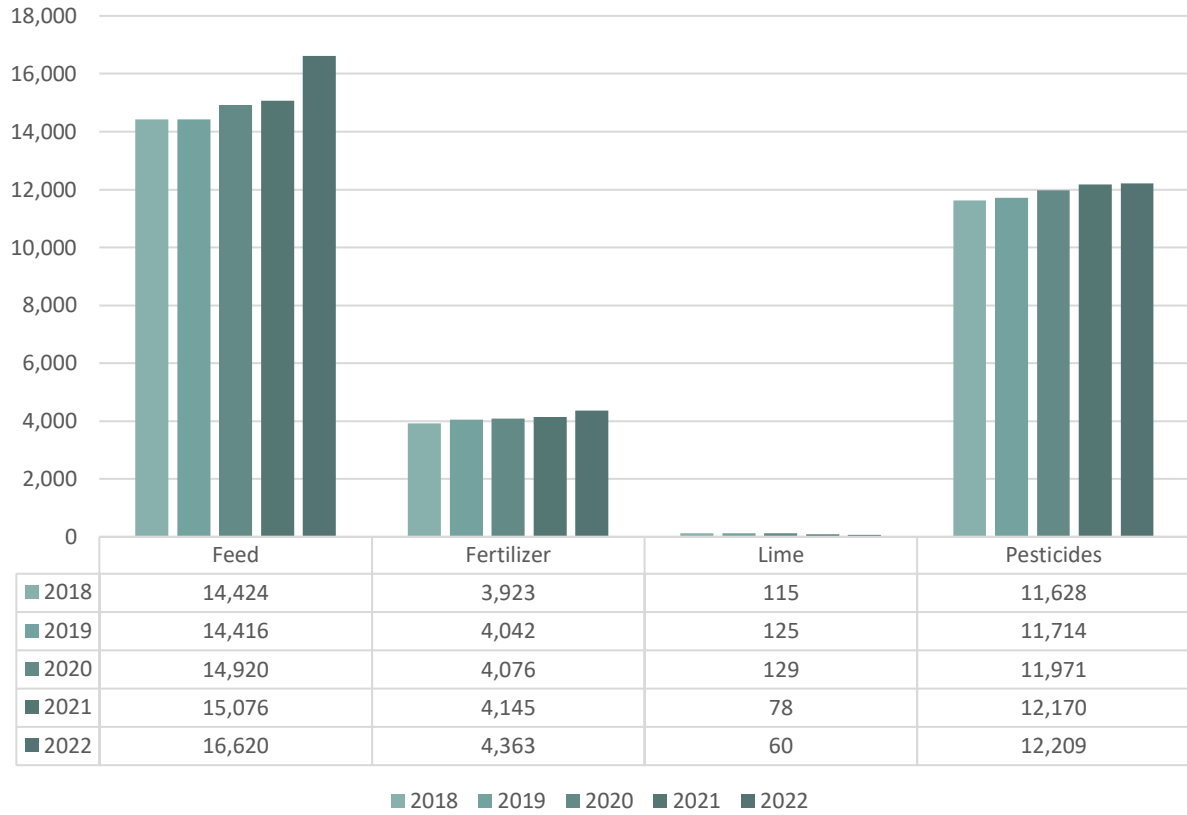

A sample is deficient if the analysis of any component varies from the guarantee by an amount greater than the values set in Vermont Statute. The allowed variance is based on component tested and is not equal for all components. Sample violations are those samples which are deficient in protein, fat and/or fiber. Sample deficiencies includes all deficiencies (Ca, NaCl, etc.).

2022 Product Registration by Type

	2022 Products registered	Percentage
Feed	16,620	50
Fertilizer	4,363	13
Lime	60	<1
Pesticides	12,209	37
Total	33,250	100

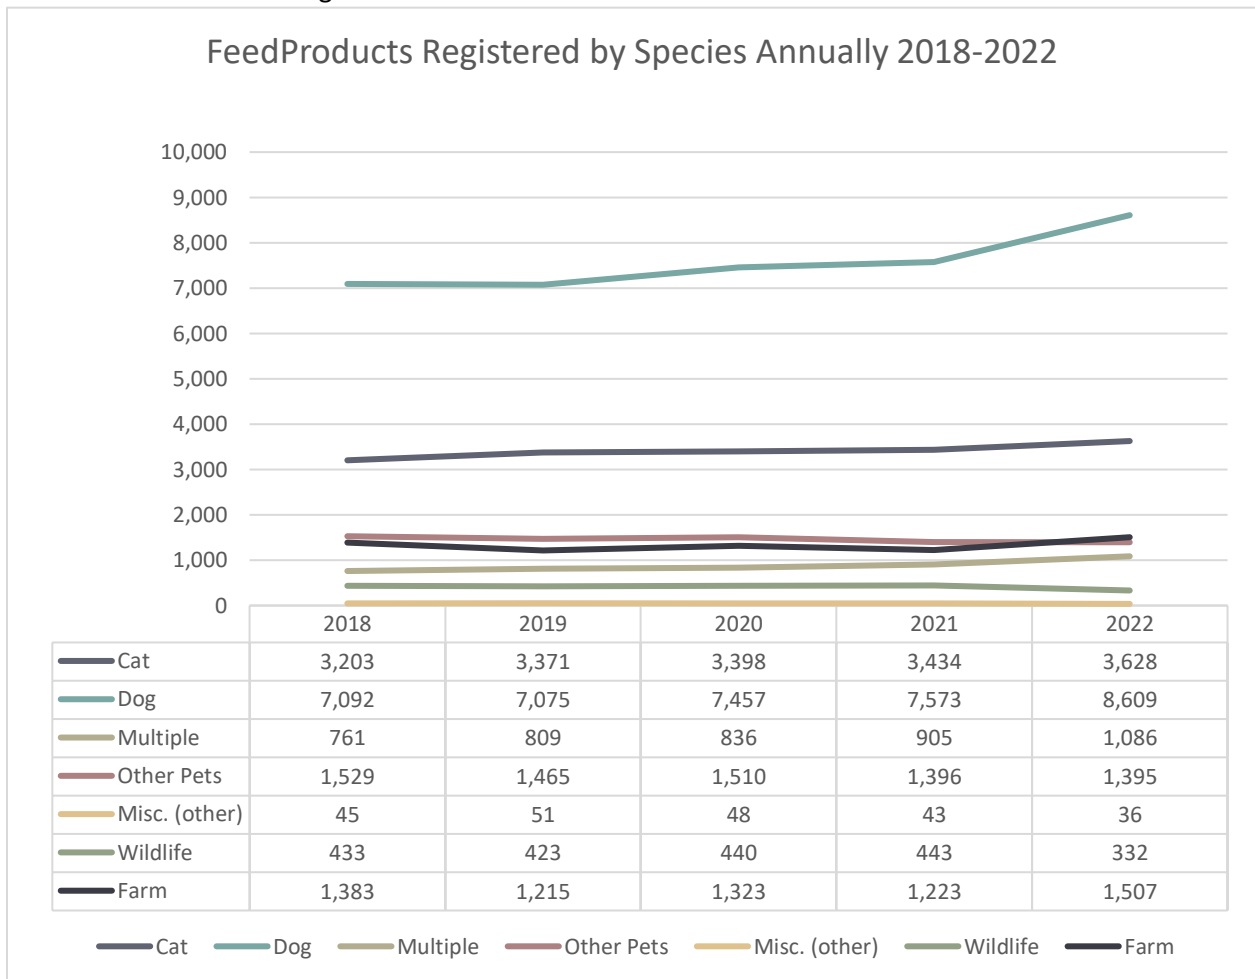

Product Registration by Year and Type 2018-2022

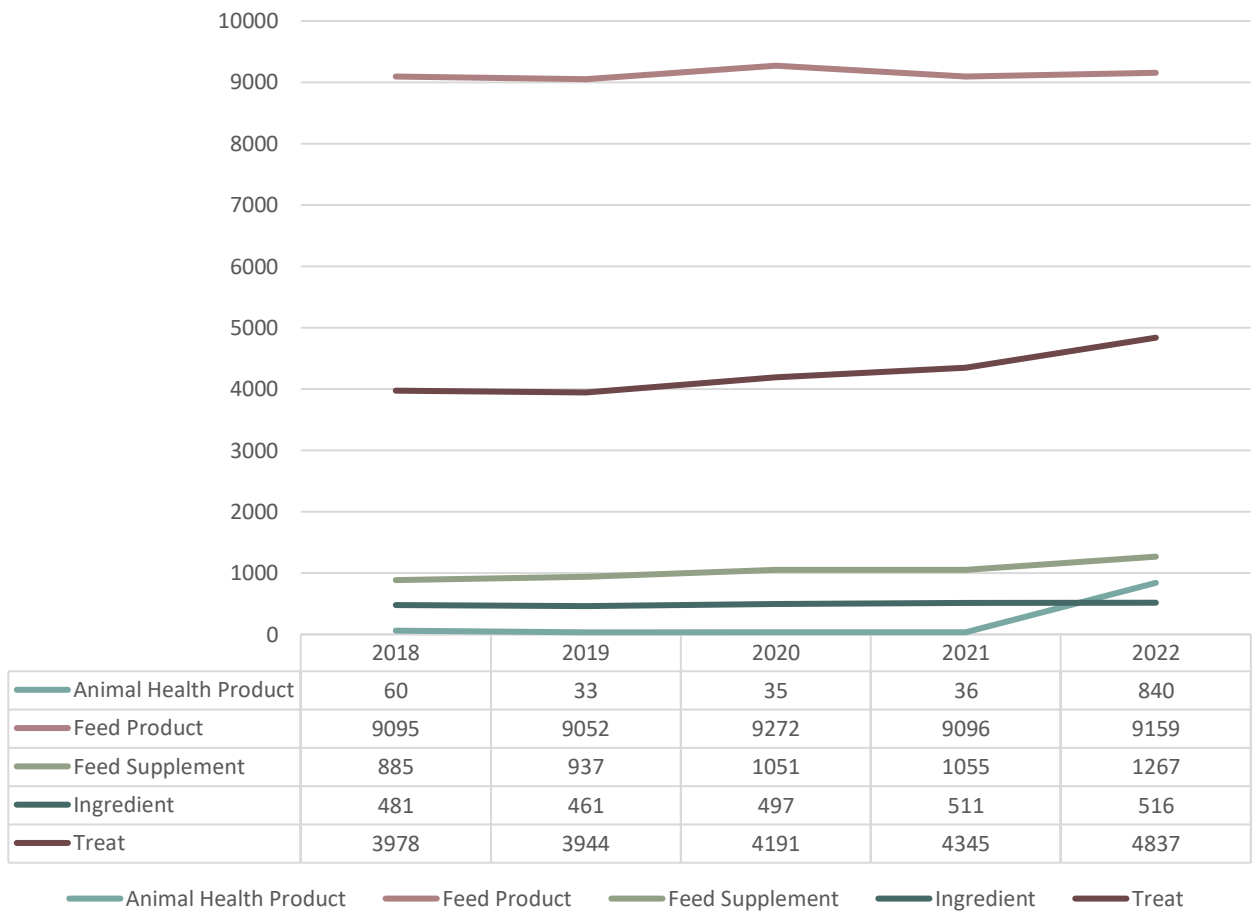

Note: Feed data is current as of 1/12/2023. The feed registration year is April 1st-March 31st.

Trends in Feed Product Registration

Note: Multiple is products that are intended for more than one species across the other categories (i.e., dog and cat or dog and horse). Wildlife includes wild birds and wild mammals. Other pets include birds, fish, pet reptiles and amphibians and all other pocket pets. Farm includes livestock and horses. Misc. includes all others.

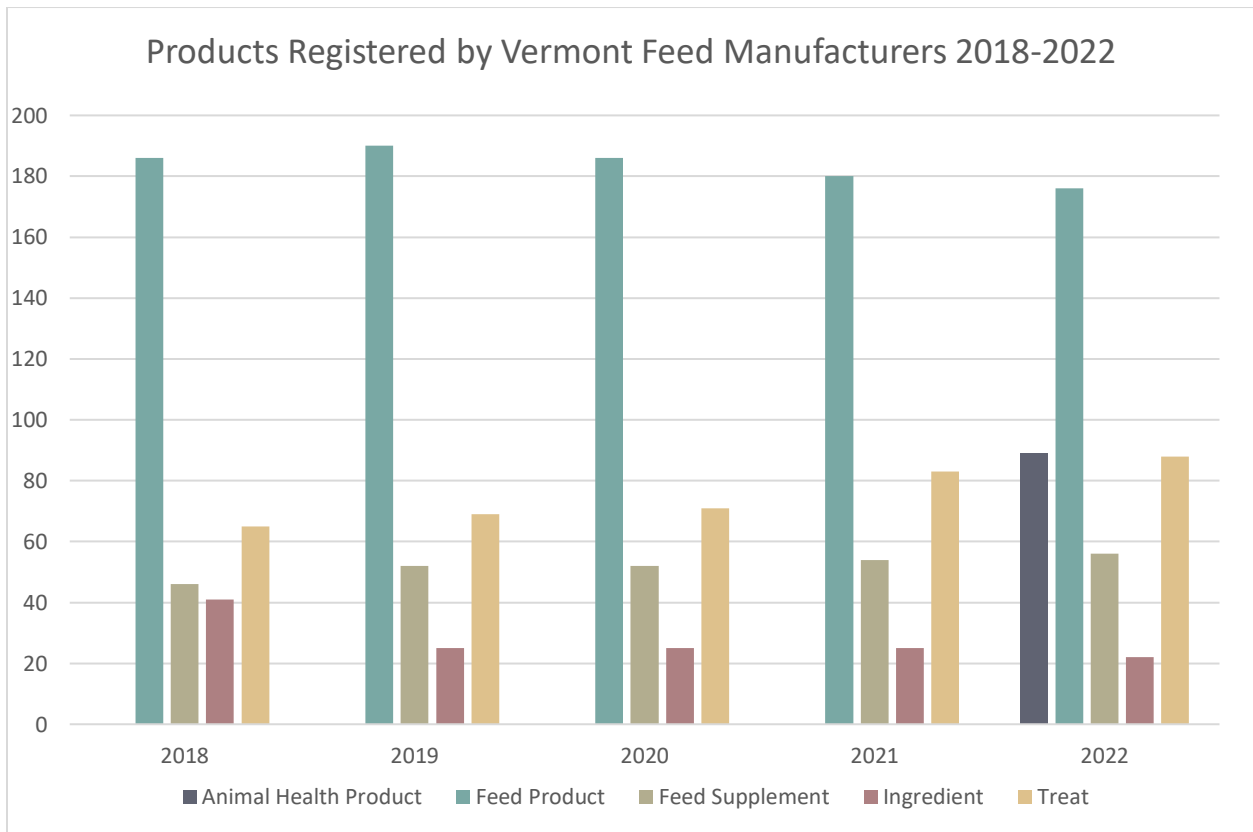

Feed Products Registered by Category 2018-2022

Note: Dosage form animal health product “means any product intended to affect the structure or function of the animal’s body or enhance or support the health or well-being of livestock, poultry, dogs, cats, or other domestic animals that does not provide nutritional benefit, does not require a prescription from a licensed veterinarian, is not intended for cosmetic purposes, or is exempted by the Secretary by rule”. 2022 was the first year that registration of dosage form animal health products was required.

Vermont Feed Companies

In 2010, there were 18 active registered feed manufacturers based in Vermont. That number has increased annually to 44 active registered Vermont feed manufacturers in 2022 with a total of 436 products registered. The chart below shows that there continues to be an increase in the number of treat products manufactured in Vermont along with registration of dosage form animal health products. .
