*Yes, only as a related condition to an eligible disaster

Other natural disasters that may apply to some of these programs (not all perils are eligible loss conditions for all programs) include:

- Explosion;
- High water;
- Landslide;
- Mudslide;
- Severe snowstorm;
- Storm, including ice storms;
- Tidal wave;
- Wind-driven water;
- Insect infestation;
- Plant disease;
- Lightning; and
- Other natural phenomena.

Some man-made conditions qualify for disaster assistance, as follows:

- Dairy Indemnity Payment Program (DIPP) – provides compensation to dairy producers when a public regulatory agency directs them to remove their raw milk from the commercial market because it has been contaminated by pesticides, nuclear radiation or fallout, or toxic substances and chemical residues other than pesticides.

This fact sheet is for informational purposes only; other restrictions may apply.

For more information about USDA disaster programs, visit [farmers.gov/recover](https://farmers.gov/recover) or contact your local USDA Service Center.

To find your local USDA Service Center, visit [farmers.gov/service-locator](https://farmers.gov/service-locator).

To locate an approved insurance provider, visit the Agent Locator on [rma.usda.gov](https://rma.usda.gov).

USDA is an equal opportunity provider, employer, and lender.

**Footnotes**:
- Yes, but only if determined eligible by FSA.
- Yes, except for fire associated with wildfires.
- Yes, except for water and feed transportation.
- Yes, but only if grazing losses.

**Agency Key**:
- NRCS = Natural Resources Conservation Service
- FSA = Farm Service Agency
- RMA = Risk Management Agency

**Environmental Quality Incentives Program (EQIP)** – provides agricultural producers with financial resources and one-on-one help to plan and implement improvements on the land including financial assistance to repair and prevent the excessive soil erosion caused or impacted by natural disasters. These practices include activities like stream bank restoration, grassed waterways and buffers. NRCS-funded conservation practices protect your land from erosion, support disaster recovery and repair and can help mitigate loss from future natural disasters.

Assistance may also be available for emergency animal mortality disposal from natural disasters and other causes.

**Emergency Watershed Program (EWP-Recovery)** – offers vital recovery options for local communities to help people reduce hazards to life and property caused by floods, droughts, wildfires, earthquakes, windstorms, and other natural disasters.

Project funds address erosion-related watershed impairments by supporting activities such as removing debris from stream channels, road culverts, and bridges; replanting and protecting eroded banks; correcting damaged drainage facilities; repairing levees and structures; and reworking damaged areas.

EWP Floodplain Easements – provide an alternative to Recovery efforts described above. NRCS has the authority to purchase floodplain easements (FPE) as an alternative measure to traditional Recovery where sites meet EWP-FPE eligibility criteria and it is determined that acquiring an easement is in lieu of Recovery is the more economical and prudent approach to reducing the threat to life or property.

**Livestock Forage Disaster Program (LFP)** – provides compensation to eligible livestock producers who have suffered grazing losses due to drought or fire on land that is native or improved pastureland with permanent vegetative cover or that is planted specifically for grazing.

**Livestock Indemnity Program (LIP)** – provides benefits to livestock owners and some contract growers for livestock deaths in excess of normal mortality that are the direct result of an eligible adverse weather event. In addition, LIP payments by animals reintroduced into the wild by the Federal Government or protected by Federal Law. Also, LIP provides assistance to livestock owners that must sell livestock at a reduced price because of an injury from an Hhile-life condition.

**Footnotes**:
- Yes, but only if determined eligible by FSA.
- Yes, except for fire associated with wildfires.
- Yes, except where associated with wildfires.
- Yes, but only if deaths result from fire associated with a winter storm or extreme cold as determined by FSA.
