The purpose of this grant is to support innovative and impactful initiatives that engage Vermont youth in addressing and learning about issues related to food, agriculture or related fields. Strong proposals will be scalable and/or replicable, will prioritize youth leadership, and will have a high net impact score – defined generally as the number of youths impacted multiplied by the magnitude of the impact per individual.

ELIGIBILITY

Vermont schools, licensed and/or registered childcare providers, and licensed afterschool programs are eligible to apply to this funding opportunity. Non-profits and community organizations that conduct programming in Vermont are also eligible to apply, but must apply as a co-applicant with a school, childcare provider, or afterschool program.

AVAILABLE FUNDS

A total of \$16,000 is available through this competitive funding opportunity.

MAXIMUM AWARD

The maximum award is \$16,000. Applicants are required to provide a match equal to 25% of their total grant award in the form of cash or in-kind services.

MINIMUM AWARD

The minimum award is \$5,000.

PROJECT LENGTH

The project length for this funding opportunity is two years from the execution of the grant agreement.

FUNDING SOURCE

Funding is provided by an annual State of Vermont legislative appropriation.

FUNDING OPPORTUNITY DESCRIPTION

Farm to school is a broad term. It defines a variety of efforts aimed at educating and engaging children and young adults on the connections that exist between agriculture, nutrition, community and health. This competitive funding opportunity is designed to support projects that engage youth in exploring those connections. We are seeking proposals that address specific challenges related to the interconnections between agriculture, nutrition, community and health.

Applicants will be required, using qualitative and/or quantitative evidence, to identify a farm to school related challenge impacting their community. Applicants will then need to demonstrate how they seek to address that challenge through their proposed project. Proposals must center youth in their scope. Strong proposals will:

 - (# of individuals who stand to benefit) X (magnitude of the benefit per individual)

- Climate change
- COVID-19
- Food insecurity
- Food sovereignty
- Health and nutrition
- Racial and social equity

ELIGIBILITY

ELIGIBLE APPLICANTS

Vermont schools, licensed and/or registered childcare providers, and licensed afterschool programs are eligible to apply for this grant. Both individual entities and consortiums of entities are eligible to apply.

Non-profits or community organizations that conduct programming in Vermont are also eligible but must apply as a co-applicant with an eligible school, childcare or afterschool program.

ELIGIBLE PROJECTS

Projects must center Vermont youth in their scope and promote awareness of, and engagement in, issues related to agriculture, nutrition, community and health.

INELIGIBLE PROJECTS

Projects that are primarily designed to benefit an organization, business or industry sector will not be considered for funding.

MATCHING FUNDS

Applicants are required to provide matching funds equal to 25% of their grant request. Matching funds can be in the form of in-kind services, cash, or a combination of both. Cash match is not a requirement, but proposals that leverage additional funding may be scored more favorably than those that meet the match requirement through in-kind services alone.
