

NMP Update Working Sessions

It's time to update your Nutrient Management Plan!

The Orleans County Conservation District will offer **four** nutrient management plan update sessions to producers who have taken the UVM nutrient management planning class. We will provide assistance and quiet space for you to get your update done!

Update your NMP with your spring/summer/fall 2018 records.

Roll over your plan to 2019 and make any changes that are needed.

Print reports and records.

[More details on the second page!](#)

The update sessions will take place at our Newport office in the USDA Service Center at 59 Waterfront Plaza from 10 am to 3 pm on the following dates:

Tuesday, February 19th, 2019 **Wednesday, February 20th, 2019**

Wednesday, March 6th, 2019 **Thursday, March 7th, 2019**

PLEASE RSVP!

Please let us know if you are coming so that we can plan accordingly.

Call 802-334-6090 ext. 7008 or email

emily.irwin@vt.nacdnet.net

The update sessions are free, but goCrop subscriptions are not. An annual fee of \$249 is required for goCrop. If you need to renew, please bring a debit or credit card.

Bring your own lunch and snacks! We will have coffee and tea available.

To stay in compliance with state regulations, you must keep records and update your plan every year. We can also help with any other paperwork!

What do I need for an NMP Update Working Session?

Your NMP binder from your original NMP class, and your most recently updated NMP (if you have one). This is the binder with all of your maps, soil information, etc.

Your login/password information for goCrop.

New manure test(s) (required every year) and soil tests (required every 3 years), if you have them.

Farm records for 2018: manure spreading records, crop records, grazing records, animal numbers, etc.

Reporting forms for CSFO/MFO/LFO or any other certification.

Payment (via debit/credit card) if your goCrop subscription is not up-to-date.

If you have questions about any of these items, please give us a call and we can help you.

If you have added any fields, please contact Emily Irwin at emily.irwin@vt.nacdnet.net for updated maps, RUSLE2s, and a soil sampling plan.

If you can't make these days, but would still like to participate, give us a call and we can set up an appointment.

And don't forget to RSVP!
Call 802-334-6090 ext. 7008 or email emily.irwin@vt.nacdnet.net
