

# APRIL 30<sup>TH</sup>, 2019 PRECISION AGRICULTURE WORKSHOP

Join the Orleans County Conservation District and representatives from Harvest Equipment, Agricultural Consulting Services and Dairy One, Magnan's Custom Service, and Farm Compliance Services to learn about how precision agriculture technology can increase your operation's productivity and efficiency, and help manage impacts on natural resources.

## Workshop details:

**10:00** – Meet at venue

**10:15** – Precision ag 101 – *Steve Daigneault, Harvest Equipment*

**11:00** – Utilizing precision ag data – collecting, interpreting, & applying – *Tom Eaton and/or a representative from Integrated Farming Solutions, Dairy One*

**12:00** – Lunch provided for all participants

**12:45** – Manure management using precision ag equipment, technologies that work on small farms and hilly terrain, & the farm perspective – *Scott Magnan, Scott Magnan's Custom Service*

**1:30** – How a nutrient management plan fits in with precision agriculture and recommendations for producers who are just beginning to consider a technology investment – *Matt Kittredge, TSP*

**2:00** – **Optional:** caravan to Richard Nelson's farmstead at 2742 Route 14 in Irasburg to take a look at some precision agriculture equipment in person!

**RSVP REQUIRED** 802-334-6090 x 7022 or
