By:

Ali Boren  
Certification Officer  
Date signed September 10, 2021

As of September 30, 2021, this list supersedes all previous lists for this certificate number.  
Vermont Certification is based in part upon current New Hampshire Accreditation Certificate of Approval number 300220-F, September 18, 2020 to September 17, 2021. Laboratories are certified in Vermont based, in part, upon its Primary Accrediting Body(ies) drinking water accreditation(s). Also, loss of drinking water primary accreditation (in part or whole) constitutes loss of certification in Vermont for the same drinking water tests.
