

Project Title	Applicant Business Name
Community Phosphorus Recovery Collaborative	Addison County Economic Development Corporation
Integrating Technologies to Achieve Economical Phosphorus Removal and Redistribution	Agrilab Technologies Inc.
BioSolv Challenge	Bacterial Logistics
Quick Wash Challenge	Bacterial Logistics
Vermont Phosphorus Innovation Challenge	CH Four Biogas Inc. and BioPolynet
Response to Vermont Phosphorus Innovation Challenge	Crystal Creek Organics
Ultrafiltration of Dairy Manure for Phosphorus and Pathogen Control	Digested Organics
Recovery of Phosphorus from Digested Dairy Manure	DVO, Inc./ UVM
Vermont's Phosphorus Innovation Challenge	The Village of Essex Junction, The Chittenden Solid Waste District, UVM
Response to: Reverse Pitch, Stage I	EnSave
VPIC Stage One Response	ESSRE Consulting, Inc.
Manure Separation and Phosphorus Removal System and Process	Figure 8 Environmental
Vermont Phosphorus Innovation Challenge	Green State BioChar
Vermont's Phosphorus Innovation Challenge	GSR Solutions LLC
Proposal for the Vermont Phosphorus Innovation Challenge	James Maroney
Advanced VRD System for Dairy Waste Management and Phosphorus Recovery	Sedron Agriculture (Janicki Bioenergy)
Production of Low-Solubility Phosphate Rock from Mobile Phosphorus in Dairy Cattle Manure	McGill University
Nano-engineered Particles for Enhanced Struvite Recovery from Wastewater	MIT
Vermont Phosphorus Innovation Challenge	Native Energy
Newtrient Ecosystem Services Marketplace Project Application	Newtrient
Vermont Phosphorus Innovation Challenge	Norwich University
Turning Waste Into Opportunity	Phinite, Inc.
Vermont Phosphorus Innovation Challenge Proposal for Stage One	Phospholutions
Mineral Phosphorus Fertilizer Recovery from Anaerobic Digestion of Brewery and Dairy Wastewater	PurposeEnergy, Inc. /McGill
Deploying Regional Minerals and BioCarbon for Nutrient Management in Mitigating Excess Phosphorus and Nitrogen Pollution from Agriculture and Forestry in Vermont Watersheds	Rock Dust Local, LLC
Vermont Renewable Phosphorus Market	Middlebury College and Vanguard Renewables
Cooperative aerobic composting for production and export of a value-added soil amendment from agricultural waste	Watershed Consulting Associates, LLC
