Join the **Farmer's Watershed Alliance** as we host our second annual Precision Agriculture Forum! This event will showcase innovative tools and farming practices that can be integrated into current farm management systems; and connect farmers and farm managers with the necessary information and resources to adjust practices accordingly.

Topics include: precision feed management, agronomic benefits to precision agriculture technology & no-till, bench-marking system in NY and the Dairy Profit Monitor, results from a 5-year on-farm feeding accuracy study, and more!
